Systems Engineer from Pedro Ruíz Gallo National University. A professional with strong analytical skills, a team-oriented mindset, and a proactive attitude, consistently striving for excellence in every project. With over 8 years of experience as a Full Stack Developer, specializing in building scalable SaaS solutions and enterprise applications that turn complex ideas into valuable digital products. Experienced in developing comprehensive educational platforms, electronic invoicing applications integrated with SUNAT, e-commerce sites, and hospital systems. Skilled in SQL databases (MySQL, PostgreSQL, SQL Server) and NoSQL databases (MongoDB, Firestore), with extensive proficiency in technologies and frameworks such as React, Next.js, Laravel, Flutter, Go, and AWS.
